Name _____ Date _____

Numbers 1 to 10

Read and write numbers to ten, as numerals and as words.

1 Learn

A number can be written two ways: as a **numeral**, like **3**, or as a **word**, like **three**. Both mean the same amount!

1	2	3	4	5	6	7	8	9	10
one	two	three	four	five	six	seven	eight	nine	ten

How many stars?

1. Touch each star once as you count: **one, two, three, four, five, six, seven**.

2. The last number you say tells you how many: **7**.

3. Write the numeral **7** and the word **seven**.

Flip's tip: **6** and **9** look alike! **6** has its round tummy at the **bottom**. **9** has its round head at the **top**.

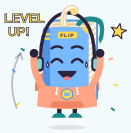

Warm up: fill the gaps.

1, 2, ____ , 4, 5, ____ , 7, ____ , 9, ____

Grown-ups: read Flip's words aloud and point to each numeral, then its word. Ask your child to find the word that matches a numeral you say. Writing some numerals back to front is very common at this age: just show the right way and carry on.

Name _____ Date _____

2 Try it together a child and a grown-up, about 10 minutes

Count it out

You need: 10 scraps of paper, a pencil, and 10 small things to count (spoons, socks, toy bricks or pegs).

1. The grown-up writes the words **one** to **ten** on the scraps, folds them and mixes them up.
2. Pick a scrap. **Read the word** together.
3. Count out that many things, touching each one as you say its number.
4. Write the **numeral** in the table and draw that many dots.

Round	The word	The numeral	Draw the dots
1			
2			
3			
4			

Grown-ups: ask "How do you know that word says seven?" Look at the first sound together. For four and five, both start with f: listen for the end sound.

3 Practise

A. How many? Count, then write the numeral.

Put a small tick on each one as you count it, so you don't count it twice.

Name _____ Date _____

B. Draw a line to match each numeral to its word.

2	four
5	nine
8	two
4	eight
9	five

C. Write the missing letters.

6 s ☐ x

10 t ☐ n

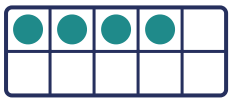

5 f ☐ ve

3 th ☐ ee

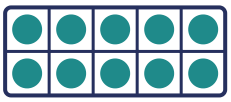

1 ☐ ne

7 se ☐ en

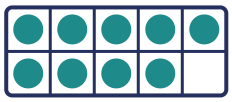

D. Count the dots. Draw a ring round the right word.

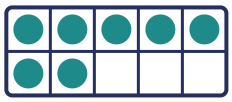

four five

two ten

nine six

seven six

Challenge

Leo says this card shows **six:** 9 Is he right? How can you tell 6 and 9 apart?

I can… Tick when you can.

- ☐ I can read numbers 1 to 10.
- ☐ I can write numbers 1 to 10.
- ☐ I can read and write the words one to ten.
